Altre informazioni:

One of few produced in 1989 with the Targa option and the only year that 930 Turbos were offered with the G50 5-speed transmission.

This amazing car had some upgrades done by RUF and was direct exported from new in 1989

RUF parts:

Gauges (350km/h), wheels, aero parts, uprated inter-cooler, steering wheel, badges.

Non-accident car, rust free, was repainted at some point but looks very nice.

Targa top in beautiful shape which is a major plus on these.

Has the books and some
